# “ America’s Cabinetmaker since 1946. ”

Merillat® Cabinetry is a great American story that began with a young couple named Orville and Ruth Merillat.

1946

In 1945, Orville Merillat ends his military service and starts the Merillat Woodworking Company with his wife, Ruth, the following year.

1959

Merillat Woodworking Co. expands in 1954 from a 2,400 square foot building to 15,000 square foot plant.

1963

In 1962 Merillat receives patent for a critical innovation, self-closing hinges, the first of many innovations pioneered by Merillat.

Left: Ruth and Orville Merillat are married in 1945.  
Above: Orville (left) pushes a cabinet frame through a sander.

1971

On its 25th anniversary, in 1971, the company is renamed Merillat Industries, Inc.

1984

In 1985, Merillat Industries becomes the #1 cabinet maker in America.

1999

Merillat Cabinetry begins assembling cabinets a kitchen-at-a-time for efficiency and speed of delivery.

We are America's Cabinetmaker.

2013

Merillat Cabinetry pushes forward with new processes and new products. All with our founder's vision in mind.

Do your best and then some.

—Orville Merillat

# Dream

When first looking for a kitchen or bath, anything's possible. In this section, our designers help capture the dream, relating your life with your style.

# Design

Once you've envisioned your dream, it's time to start making it a reality. Here, we'll show you how your designer will help you transform your tastes and lifestyle from ideas into a layout.

# Decide

Now that you know what to look for, it's time to start making choices. What wood? What door style? What color? What accessories? There are no wrong answers. There's just the answers that are right for you. We can help.

**DID YOU KNOW?**  
Merillat Cabinetry has worked with dealers, designers, and consumers to better understand the cabinet-purchasing process and help you through the entire process.

# Deliver

Once you've made your selections, we'll advise you on how to prepare for your new cabinets and then give you the support you need after you have them in place.

# DREAM

“

In the beginning of your journey, there are no limits to the possibilities. We'll help you build your dream, and guide you through this exciting phase.

## What inspires you?

“ This kitchen, showcased in the next few pages, was inspired by my clients’ love for New Orleans, and products that brought home southern charm including exposed brick, traditional furniture, interesting lighting, and much more. These elements translate into cabinetry choices like color, style, and hardware. ”  
 – Lori Lewandowski

Merillat Masterpiece® Hardware:

“A dark stain contrasts beautifully with her light furnishings, allowing things to stand out.”

“After you and your designer begin working together, you will receive a 3D rendering of your space. My client received this to help visualize the space.”

“Don’t just think about cabinets — consider the whole environment. Fabrics and textures bring life. And here, you can also see a great new trend: a painted ceiling. It adds dimension and interest to an entire space.”

"I believe in open and clear communication. I am Merillat."

Ashley Chynoweth (pictured above)

# DESIGN

“

Great design translates your personality into a sketch, and ultimately, into a space that's uniquely yours. I'll help walk you through a typical process that converts a dream into a beautiful reality.

”

“  
 Designing should be around your entire life and home. This mudroom design wasn't simply to create a great-looking entry; it was about a family who wanted organization for their most-used items. Beauty and function together in one place? Now *that's* great design.”

# The Design process.

“ While there is a typical design process, every situation is different. On the next few pages you’ll see how a professional designer can guide a couple with different tastes to a layout they both love. ”  
 – Betsy Writer

“We started with a checklist. What she wanted vs. what he wanted. We found commonalities and contrasts. And in the end, we found a beautiful solution.”

“After getting to know their wants, I put it together in a drawing. It starts with a floor plan and evolves into a 3D model they could both react to.”

Merillat Masterpiece® Hardware:  
Baluster Pull & Knob

“An island was perfect for this space. It introduced new design elements, a great work space, and a central sitting place. For more island ideas, see pages 54-55 in this guidebook.”

“We tied different looks together with uniform countertops and hardware. It’s those vital details that allow for two styles to fit together naturally and beautifully.”

# Door styles.

“ There are many different aspects to a cabinet. The door style is one of the most important choices. Here are some things to consider. – Mary Jo Mosiniak ”

## Partial or Full Overlay Doors?

Ever look closely at cabinets? The small details can create an entirely different look.

### Partial Overlay.

Overlay is the amount of face frame covered by the door and drawer. The reveal on Partial Overlay cabinets is typically 1 inch. These are usually less expensive.

### Full Overlay.

This overlay covers most of the face frame, giving prominence to the door and drawer design, which offers you a more custom look.

## Recessed Panel, Raised Panel, or Slab?

Simple differences can have a major effect on the look of your entire space.

### Recessed panel.

The center is inward, giving it a deep, interesting look.

### Raised panel.

The center panel is raised, providing dimension.

### Slab panel.

A flat, clean, modern look that dares to be simple.

## Square or Arched?

Some of our door styles also give you different options for the door shape itself.

### Square.

Like a piece of framed artwork, the panels have right angles on all sides.

### Arched.

The top of the panel is curved, providing an architectural element (wall cabinets only).

Door styles shown above: Seneca Ridge (Partial Overlay), Tolani (Full Overlay), Bellingham (Recessed Panel), Somerton Hill (Raised Panel), Fusion (Slab Panel), Seneca Ridge (Square), and Spring Valley (Arched).

# Wood type.

Your choice of wood type can really make a dramatic effect on a room. Do you like a lot of grain variation? Would you prefer a more consistent look? The wood type you choose determines how the color will look.

– Mary Jo Mosiniak

Maple

Maple is a popular choice featuring a fine uniform grain that really takes a color quite well. Maple is versatile and available in nearly every color combination. A very consistent wood type.

Cherry

Cherry is moderately hard and heavy, and a fine-to-medium uniform grain. Cherry is commonly thought of as a deep color, but is quite different depending upon your choice of stain. Expect variations.

Hickory

Hickory is very heavy, very hard, and has a grain with quite a bit of variance. This creates a design element in and of itself, taking on colors in unique ways. No two doors will look alike.

Oak

Oak is heavy, hard, stiff, and has a medium-fine, noticeable grain. It gives you dramatic lines that play quite differently off of each color.

Laminate

Easy to clean and built to last, laminate cabinetry gives you a uniform look and appearance.

## **DID YOU KNOW?**

Our door styles are developed by studying consumer trends and gathering feedback from designers, dealers, and consumers.

## Maple Paint w/ Accent

“Want to add elegance and depth? Try a glaze. A glaze is a hand-wiped technique that adds richness after the color is applied. Door styles that have more detail are excellent candidates for glazes, because the glaze binds to details and brings them out.”

## Cherry Stain

## Cherry Stain w/ Glaze

# DELIVER

“

You have dreamed, designed and decided on all the details for your new space. Now, it's time to place the order and get ready for installation. At Merillat Cabinetry, we've created a system to deliver cabinets in days – not weeks. All of our hard work comes down to one paramount goal... to deliver quality products as quickly as possible to you!

”

**Mark VanSickle**

Tradeshow/Display Manager, Merillat Cabinetry  
Merillat Cabinetry 44 years

# The Deliver phase.

“ Congratulations! Reaching this point in the process is a great and rewarding accomplishment. We know you’re excited, but we also want to help prepare you for the last part in your journey. The finish line is near! – Mark VanSickle ”

## Your vision. Ordered.

- Receive a final design packet or order confirmation from your designer.
- Remember, many people regret not having more accessories or special features in their kitchen. Did you include a pull out wastebasket? What about a wood cutlery divider?
- Confirm you have everything you need for your project to go smoothly. Have you ordered your new countertops? Appliances? Lighting? Backsplash? Flooring?

## Your boxes. Arrived.

- Prepare your home for construction to begin! It's almost time!
- Schedule a time for delivery with your dealer.
- Make sure you have cleaned out your old cabinets and cleared a path for your new cabinets to arrive.
- You will soon have installers and other tradesman working in your home. Make sure your little ones (kids or pets) have a safe place to play.

### TIP

Don't worry. You won't be inconvenienced long. Merillat Cabinetry delivers our Merillat Classic® cabinets in days – not weeks, like our competitors.

## Your cabinets. Installed.

- It normally takes a few days or maybe even longer depending on the complexity to get your cabinets out of the boxes and onto your walls.
- Be sure to understand the install process with your professional installer. When will they begin? What should you expect?
- Prepare to be without your kitchen or bathroom during this period. Where will you eat? How will you wash dishes? Will you put your refrigerator in another room or the garage?
- The installation process requires a skilled craftsman to ensure your design comes alive. Occasionally, things happen. Between your installer's skill and our rapid replacement parts process, you can breathe easy.

## Your room. Delivered.

- Enjoy complete satisfaction of your new space!
- Invite friends over and have a dinner party.
- Relax and celebrate your accomplishment.
- Welcome to the Merillat® cabinetry family!

"I believe our product is only as good as the experience you have all the way through. I am Merillat."

Your dream. Our passion.

“ This is when the process becomes all worth it. It is the result of your dream, a great designer, excellent products, a quality installer. The rest is up to you. – Mark VanSickle

”

"I believe that a space is an extension of a personality  
- and that no two are alike. I am Merillat."

# THANK YOU

“

Orville Merillat used to say to his employees, ‘Do your best and then some.’ We strive every day to honor our founder, focusing on people first, always. Your experience will define our company. I am proud to be Merillat®. We hope you become part of our community, as well. Because together, we are ‘America’s Cabinetmaker.’
